A Touchstone Energy® Cooperative 

Underground Utility Locate Agreement

&

Release of Liability

As an applicant for electric service with Houston County Electric Cooperative, Inc. “Co-op”, you will be responsible for locating and visibly marking all private underground utilities, including but not limited to water, sewer, telephone and gas, prior to the construction of any electric facilities on the property you occupy. Any damages to unmarked underground utilities by the Co-op will be at the applicant’s expense and will be his or her responsibility to repair.

Furthermore, if service is required by applicant during inclement weather conditions and fulfillment of service request does not risk damage to property not occupied by applicant, the Co-op will complete construction. Any damage such as holes or ruts from use of heavy equipment will be the responsibility of the applicant to repair at his or her expense.
