

HOUSTON COUNTY ELECTRIC COOPERATIVE, INC. ELECTRIC SERVICE TARIFF	Section No.: — Effective Date: July 1, 2011 Page: 1
Section Title: RATE SCHEDULES Applicable: ENTIRE SERVICE AREA	

GENERATION RIDER

RIDER G

APPLICATION

Applicable to consumers of the Cooperative with Distributed Generation (“DG”) Facilities or Qualified Facilities (“QFs”) having a design capacity of 10 MVA connected in parallel operation to the Cooperative’s electric system in accordance with the Cooperative’s service rules and regulations and the Cooperative’s *Customer Generation Procedures and Guidelines Manual for Members (“CG Manual”)*, which is available on request.

This rate rider is not applicable to temporary, shared, or resale service. This rate rider is applicable to service supplied at one point of delivery.

SALES TO CONSUMER AND PURCHASES FROM A CONSUMER’S DG OR QF FACILITY CLASSIFIED AS HAVING A DESIGN CAPACITY NOT GREATER THAN 500 KW OF CONNECTED GENERATION

Determination of sales and purchases shall be accomplished by interconnection through two meters with one measuring all energy supplied by the Cooperative to the consumer and the other measuring all energy supplied by the consumer, or a single meter capable of providing data so the Cooperative can determine the energy supplied by the Cooperative to the consumer and the energy supplied by the consumer to the Cooperative.

Sales to Consumer:

Sales to a Distributed Generation consumer shall be conducted with the applicable retail rate tariff established by the Cooperative and in use by the consumer as if there were no Distributed Generation installation.

At its sole discretion, the Cooperative may use the applicable retail rate tariff for backup service requirements or may apply a backup retail rate tariff applicable to Distributed Generation consumers.

Purchases from a Consumer’s DG or QF Facility:

If the consumer’s generation is a QF, the Cooperative shall purchase power from the consumer at the avoided wholesale energy cost of the Cooperative’s power supplier, or such other rate as mutually agreed upon by the QF consumer and the Cooperative and, if requested by the Cooperative, the Cooperative’s power supplier.

HOUSTON COUNTY ELECTRIC COOPERATIVE, INC. ELECTRIC SERVICE TARIFF	Section No.: — Effective Date: July 1, 2011 Page: 2
Section Title: RATE SCHEDULES Applicable: ENTIRE SERVICE AREA	

If the consumer's generation is a DG, but not a QF, the Cooperative may, at its sole discretion and upon approval of its power supplier, purchase power from the non-QF consumer at the avoided wholesale energy cost of the Cooperative's power supplier, as determined for each non-QF customer on a case-by-case basis; provided, however purchase of power from a DG consumer whose generation is not a QF may be at or such other rate as mutually agreed upon by the non-QF consumer and the Cooperative and, if requested by the Cooperative, the Cooperative's power supplier.

SALES TO CONSUMER AND PURCHASES FROM A CONSUMER'S DG OR QF FACILITY CLASSIFIED AS HAVING A DESIGN CAPACITY GREATER THAN 500 KW AND NOT GREATER THAN 10 MVA OF CONNECTED GENERATION

Determination of sales and purchases shall be accomplished by interconnection through two meters with one measuring all energy supplied by the Cooperative to the consumer and the other measuring all energy supplied by the consumer, or a single meter capable of providing data so the Cooperative can determine the energy supplied by the Cooperative to the consumer and the energy supplied by the consumer to the Cooperative.

Sales to Consumer:

Sales to a Distributed Generation consumer shall be conducted with the applicable retail rate tariff established by the Cooperative and in use by the consumer as if there were no Distributed Generation installation.

At its sole discretion, the Cooperative may use the applicable retail rate tariff for backup service requirements or may apply a backup retail rate tariff applicable to Distributed Generation consumers.

Purchases from a Consumer's DG or QF Facility:

If the consumer's generation is a QF, the Cooperative's power supplier shall purchase all power supplied from the consumer at its avoided cost, or such other rate as mutually agreed upon by the QF consumer and the Cooperative's power supplier.

If the consumer's generation is a DG, but not a QF, the Cooperative's power supplier may, at its sole discretion, purchase power from the non-QF consumer at a rate that is determined for each non-QF-consumer on a case-by-case basis.

MONTHLY METERING CHARGE

HOUSTON COUNTY ELECTRIC COOPERATIVE, INC. ELECTRIC SERVICE TARIFF	Section No.: __ Effective Date: July 1, 2011 Page: 3
Section Title: RATE SCHEDULES Applicable: ENTIRE SERVICE AREA	

Each billing period the consumer shall be obligated to pay the following charges in addition to all charges indicated on his/her base rate:

Customer Charge:

10 kW and smaller	@	\$15 per meter installation
Over 10 kW and under 10,000 kW	@	\$50 per meter installation

Additional Charge:

For meter reading by Cooperative personnel where the Cooperative determines remote access to meter reading is not feasible

@ \$75 per meter installation

FACILITIES CHARGE

As determined at the sole discretion of the Cooperative on a non-discriminatory case-by-case basis to recover any additional costs of the modifications required to interconnect the customer-owned generation.

DATA ACCESS – COMMUNICATIONS LINK

In addition to all other charges in the consumer’s tariff and this rider, the consumer will provide the Cooperative at his/her own expense a communications link as approved at the sole discretion of the Cooperative for remotely obtaining meter readings at a time or times of the month as determined at the Cooperative’s sole discretion if so requested by the Cooperative.

CONTRACTS

An interconnection agreement between the consumer and the Cooperative shall be required in all cases.
